MEMORANDUM FOR: (See Distribution)

SUBJECT: U-2R Updated Baseline Configuration Meeting,
12 January 1968

1. A Meeting has been scheduled at 0900 hours, 12 January 1968, for an overall review of the updated U-2R baseline configuration. It is also planned to review certain systems and sensors in detail. The OSA Control Center has been reserved for the meeting.

2. Primary purpose of the meeting is to bring the participants (will include [redacted] representation) up-to-date on U-2R developments and on the updating or "down-the-road" planning that is going on. This will not be conducted as a formal CCB meeting, nor is it intended to go into any rigid, elaborate presentations. Consensus has been to keep the meeting at a "give and take" plane to permit free exchange of ideas and views.
